What's happening?

Site investigation works for the BusConnects Ballymun/Finglas to City Centre Core Bus Corridor Scheme are ongoing. As investigations have now been completed in a number of areas, the project is now moving into the construction phase.

Initial works will take place on the **inbound on-ramp onto the Finglas Road from Seamus Ennis Road.** These works will include upgrades to pedestrian facilities, traffic infrastructure improvements, resurfacing works, ducting works, and associated enabling and construction activities.

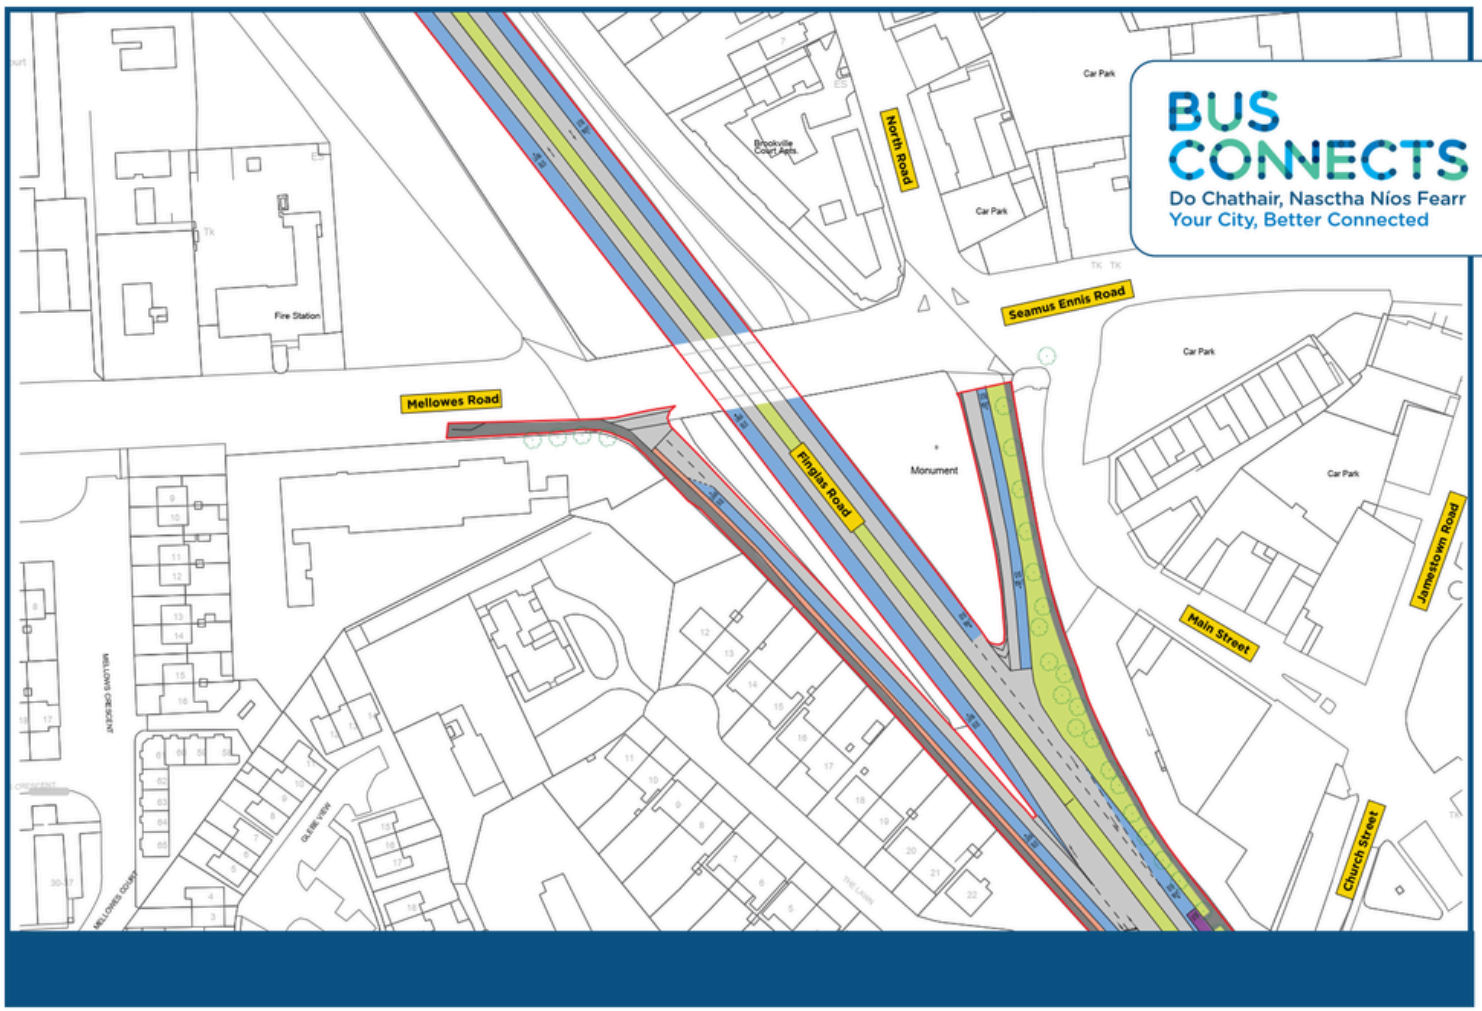
When will works begin?

Works are expected to begin on **Monday, 30 November 2026** until **Friday, 18 December 2026.** Works in this area will be reintroduced in **Q1 of 2027.** A map of the planned BusConnects work in this area is provided below.



How will access be maintained?

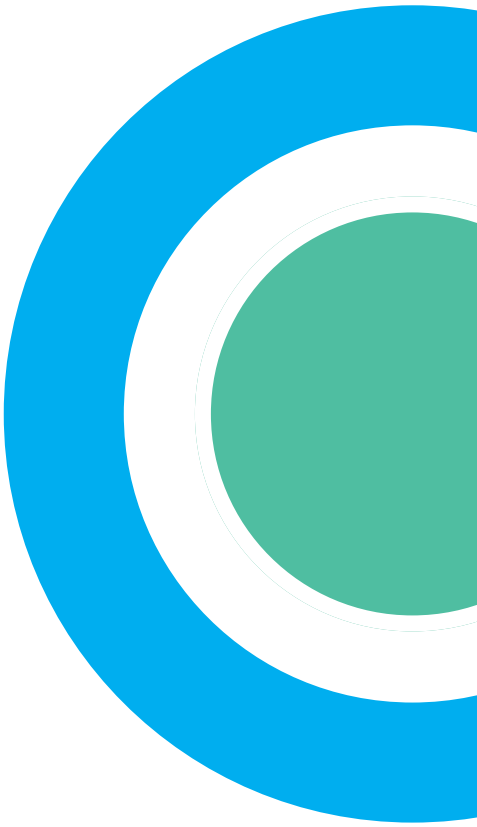
Access to homes and businesses will be maintained throughout the works. Where temporary changes to access are required, residents and businesses will be notified in advance.

Hours of operation

Works will generally take place between **7:30am and 11:00pm**, although some night-time and weekend activities may be required.

Temporary traffic management measures

Traffic management measures will be put in place to support the safe and efficient delivery of the works. These will be introduced in phases and carefully planned to protect road users, pedestrians, and site personnel, while minimising disruption to traffic as much as possible. Please see examples of measures listed below.



- Temporary traffic management arrangements and lane closures will be required at various locations along **Finglas Road** to facilitate the main works.
- **Temporary closure of the ramp will be required.** The temporary closures will take place at night to minimise disruption as much as possible.
- Temporary diversion routes will be implemented during specific phases.
- Local access and exits for residents and businesses will be maintained throughout the works.
- Temporary road markings and signage will be in place throughout the works.
- **Bus stop 8042** may be temporarily relocated a short distance nearby, remaining within easy sight of its existing location.
