

# BUS CONNECTS

Do Chathair, Nasctha Níos Fearr  
Your City, Better Connected

## Ballymun / Finglas to City Centre Scheme

**This is an Easy to Read Guide.**

# What is BusConnects?

BusConnects is a way to make public transport better for everyone in Dublin.

Travel times will be more reliable.

It will be easier and safer to walk and cycle in Dublin.

There will be more bus services across the city.

# What is BusConnects?

Buses will be given priority under the 12 BusConnects Schemes across the city.

There will be more cycle lanes.

We will start building the Ballymun / Finglas to City Centre Scheme in 2026.

BusConnects will bring good changes to our streets and towns. It will make our city a better place to live and work.

# The Ballymun and Finglas to City Centre Scheme

2

There are two main routes in this scheme.

These routes will connect Ballymun and Finglas to the heart of Dublin.

# The Ballymun Route

This route starts at the  
St. Margaret's Road junction on  
Ballymun Road.

It goes along the Ballymun Road  
to

St. Mobhi Road, Botanic Road, and  
Prospect Road  
to

Phibsborough Road and  
Constitution Hill  
to

# The Ballymun Route

Church Street  
to

the junction with Arran Quay and  
Ormond Quay on the River Liffey.

# The Finglas Route

This route starts at Finglas Road from the St. Margaret's Road junction to

Prospect Road at Hart's Corner to

The Markets Area and Constitution Hill to

Ormond Quay.

# Talking to the Community

We are putting our final plans together before building starts later this year.

We will talk with communities on the route.

We have a new website with all the latest information:

[www.ballymunfinglasscheme.ie](http://www.ballymunfinglasscheme.ie)

# Building the corridors

There will be roadworks.

The corridors will be built in stages.

This to cut down on traffic problems.

We will think carefully about the people living near the roadworks.

We will try to cut down the effect on them.

# The good things about BusConnects

A more reliable journey.

More people using buses.

People need to use their cars less.

Better access for everyone.

Safer spaces for walkers and cyclists.

Less pollution and better air for us all to breathe.

Better for the environment.
